

Titan 2 SE™

Fast Seed Loading with a Drop and Go System

Why choose the Titan 2 SE™? It's one-step loading system and torsion suspension allows you to stay on the move during planting season. The box self centers as you load and the lock downs secure the box for transport. No need to slide and damage boxes. With Friesen's patent pending *drop and go system*, you'll be loaded and on your way faster.

Easy Gate Control
2 Controls/2 Compartments.

180° Swing gives you the most flexibility to fill your planter or drill from positions left, right, or rear.

Patent Pending Self-Centering Box Guides with secure lock downs. Easily accessible with forklift.

Cleated Belt Technology with gentle tapered cleats that conform to the tube, gently carries the seed, with no roll back, rather than propelling it as traditional conveyors do.

USA Patent # 6,170,646

Model	Dimension	Discharge Ht.	Boxes	Deck Ht.
Titan 2 SE	82"x320"	120" Inc. Trailer	2	63"

Quality Features

- ◆ Box Guides
- ◆ Secure Lockdowns
- ◆ Total Clean out
- ◆ Easy Gates Control
